*Impassioned and dedicated problem-solver with a keen sense of curiosity, relentless attention to detail, well-honed Google-fu, and a background in accounting and project management. Experienced in HTML5, CSS3, Bootstrap, JavaScript, jQuery, Firebase, Node JS, MySQL/Sequelize, Express, MongoDB/Mongoose JS, Handlebars JS, React JS, Heroku, and Git. Aiming to transition these skills into a full-time web development career.*

## EDUCATION

**University of North Carolina, Chapel Hill, NC**                                    **February 2017 - August 2017**
*UNC Coding Boot Camp - Javascript Full Stack Web Development*
An intensive 24-week long boot camp dedicated to designing and building web applications. Skills learned consisted of HTML5, CSS3, Bootstrap, JavaScript, JQuery, RESTful API, Firebase, Node JS, MySQL, MongoDB, Express JS, Handlebars JS, Git, Heroku-deployment, React, and the MERN Stack.

**Reed College, Portland, OR**                                                                        **2009**
Bachelor of Arts, History
 Senior Thesis: *Beverly the Hillbilly: Women, Motherhood, and Maternalist Reform Efforts in the Appalachian South, 1900-1939* (103 pp)
- Commendation for Excellence for Academic Performance (2008-2009)

## APPLICATIONS BUILT

**Milan Woods Neighborhood (Full Stack App/MERN Stack)** – https://afternoon-ravine-62742.herokuapp.com/
- A neighborhood website built in React to contain and display data for a (real!) neighborhood in Durham, NC to allow easy access to community information for both new and established residents. Worked on a team of two developers.

**BuJo Dojo (Full Stack App/MySQL)** – https://shrouded-badlands-83159.herokuapp.com/
- A bullet journaling app that allows users to create lists of items with an associated date and completion status; allows items to be displayed in daily or weekly views depending on user's preference. Worked on a team of three developers.

**The Unorthodox Friend Finder! (Full Stack App/Express JS)** – https://sleepy-mesa-16351.herokuapp.com/
- A friend-finding app made for anyone looking for friends based on some unusual "would you rather?" questions. Full-stack application that takes input from users and matches them with a pre-existing friend with the most similar responses. Sole developer

## RELEVANT EXPERIENCE

**FESS Fire Protection**                                                            **March 2014 – Present**
*Accounts Payable Administrator / Town of Cary Project Manager (Contract Role) / Problem-Solver in Residence*
- Responsible for handling all accounts payable functions to accepted accounting principles for a fire protection company that services the Southeast.
- Manage all contracted administrative aspects of the Town of Cary Residential Backflow Assembly Testing Program, including scheduling, billing, reporting, and troubleshooting for over 6,000 assemblies during a three-month period each summer. Requested specifically by the Town of Cary for this contract role.
- Led a company-wide mobile software rollout in collaboration with the CFO.

## ADDITIONAL WORK EXPERIENCE

- **Vice President at Milan Woods HOA Board** (Durham, NC)                November 2015 – Present
- **Accounts Payable Supervisor at iBridge, LLC** (Beaverton, OR)        July 2012 – February 2014
- **Accounts Payable Specialist at iBridge, LLC** (Beaverton, OR)        November 2011 – July 2012
- **Administrative Assistant at Kartini Clinic** (Portland, OR)            March 2010 – April 2011
